Next Medical Records and RecordQuest Join AHIOS

Newest Members of Association to Work with Other Executives at the Industry's Premier HIM Outsourcing Organizations to Promote Excellence in PHI Disclosure Management

BOSTON, April 12, 2016 — The Association of Health Information Outsourcing Services ([AHIOS](#)), an organization of executives from the leading health information management (HIM) outsourcing companies who promote excellence in managing risk and compliance issues around disclosure of Protected Health Information (PHI) announced today that [Next Medical Records LLC](#) and [RecordQuest](#) have joined the growing association.

Based in Bryan, Texas, Next Medical Records joins AHIOS under the leadership of its CEO, Carlos A. Rodriguez, who has built the company into a market leader with a full suite of customizable offerings including full outsource, in-house, remote ROI and facilities management solutions. Next Medical Records uses a private portal web delivery (SAAS Model) and secure cloud technology to deliver medical records to requestors in Alabama, Georgia, Florida, Mississippi and Texas.

“We are excited to be a part of AHIOS and to be working with other leading HIM outsourcing organizations to promote excellence in the delivery of ROI outsourcing services,” said Rodriguez. “Joining AHIOS will help ensure that we continue to keep abreast of the critical regulations and compliance issues as well as the industry best practices that will be shaping our industry for years to come.”

Also joining AHIOS is RecordQuest, located in Mt Pleasant, South Carolina, who uses advanced technology, built from the ground up, to bring unprecedented levels of automation and economies of scale to address the inefficiencies of the ROI process for clients nationwide. RecordQuest provides simple to use Electronic Patient Information Exchange (ePIX) software that streamlines client’s ROI workflow and enables staff to process requests for patient records efficiently while enhancing compliance, reducing expenses and helping medical facilities to generate more revenue.

“RecordQuest is proud to be a member of AHIOS and contribute to the association’s important work in ensuring standards of excellence for the entire ROI industry” said Jack C. Sprott, Co-Founder and Chief Operating Officer at RecordQuest. “We are looking forward to working with AHIOS members in an exchange of ideas to elevate the landscape for HIM professionals and our client organizations.”

“We have entered a very challenging time in healthcare and with ever-increasing and complex compliance and quality assurance issues, the need for ROI outsourcing is greater than ever before,” said Stephen Hynes, president, AHIOS. “At this juncture, it’s crucial that the ROI industry comes together to deliver the highest quality services and create a more efficient healthcare system amidst the changes of reform. Next Medical Records and RecordQuest are wonderful examples of companies that will strengthen our advocacy and education initiatives for the ROI industry and that will help us address complex quality assurance and compliance issues that are essential to the work of our member organizations and the entire healthcare industry.”

About the Association of Health Information Outsourcing Services

Established in 1996, AHIOS promotes, strengthens and enhances the health information management outsourcing industry while ensuring excellence in managing risk and compliance issues associated with the disclosure of Protected Health Information (PHI). Its goals are to increase awareness of the value, importance and complexity of the industry’s services; establish standards of excellence for the industry of health information management outsourcing; pursue fair and equitable treatment of the industry through legislative, regulatory and legal processes; and create educational and networking opportunities for members.
